

TRAVEL TRAINING FOR VETERANS

CONNECTING TO THE VETERAN EXPRESS TRANSIT SYSTEM (V.E.T.S.)

The Riverside Transit Agency's Veteran Travel Training program was developed by Veterans for Veterans who want to learn to travel safely and independently using public transportation. Travel training is a free, self-paced process where a Veteran, regardless of ability or age, can learn to ride the RTA's fixed route system. With the confidence and skills to travel independently, Veterans can access destinations throughout western Riverside County, including accessing the Veteran Express Transit System (V.E.T.S.)

WHAT IS V.E.T.S.?

V.E.T.S. is a free, advanced reservation transportation service provided by VA Loma Linda Health Care System to assist Veterans with transportation to the VA Loma Linda Medical Center for medical appointments. RTA has collaborated with the VA to coordinate pick-up points at four area locations: Murrieta VA Clinic, Perris Station Transit Center, U.S. Vets at March ARB and Moreno Valley Mall Transfer Center.

This VA operated service runs Monday through Friday and advanced reservations are required. For more information, contact the VA Veteran Transportation Service weekdays between 8:00 a.m. and 3:00 p.m. by calling (800) 741-8387 or (909) 825-7084, ext. 2835.

ACCESSING V.E.T.S. USING FIXED ROUTE

RTA has fixed route buses that access all four pick up locations to meet the V.E.T.S. bus schedule. If you are a Veteran and are unfamiliar with how to use the fixed route bus to get to these locations, the RTA Veteran Travel Trainer can work with you one-on-one so you can get to your destination. For more information, contact Diego Sosa at (951) 565-5238.
